

Specification of data scheme for data import to Danube Forest Health

Version: 1.0

Date: 16. 4. 2019

Contact: dr. Nikica Ogris, e-mail: nikica.ogris@gozdis.si

Specification of table design:

Field	Data type	Obligate	Description
Source id	Text (50)	DA	Unique number of record in original data source
Species	Integer	DA	Number from list of species
Date of observation	Date	DA	Date of observation in format YYYY-MM-DD
Latitude	Float	DA	Latitude in degrees (WGS 1984)
Longitude	Float	DA	Longitude in degrees (WGS 1984)
Locality	Text (100)	NE	Name of locality
Number of individuals	Integer	NE	Assessed number of individuals
Area	Integer	NE	Assessed area (m ²)
Notes	Text (4000)	NE	Comments
Determinator	Text (200)	DA	First and last name of determinator of species
Date of record	Date and time	DA	Date and time of record insertion in format YYYY-MM-DD HH:mm

File Format

We accept the following file formats: Microsoft SQL Server (BAK, MDF), Microsoft Excel (XLS, XLSX), dBase (DBF), ESRI Shape (shp)
